Export Products

1. Freight

All export stock is freighted via air transport. The cost of freight is built into the cost of the stock. To be economical, minimum orders of not less than \$10,000 apply.

2. Phytosanitary Certification

All stock consigned for export requires a phytosanitary certificate from the New Zealand Government issued by the Ministry of Agriculture. The cost of the certificate is built into the cost of the stock and is another reason why minimum orders apply.

3. Trading Currency

The price of all stock is in USA dollars.

4. Demo Product List

This product list is for demonstration purposes only. Please do not order product based on this list.

<i>Product Name</i>	<i>Unit</i>	<i>No. / Tray</i>	<i>Available</i>	<i>Grade</i>	<i>Price/Unit</i>
